

# WELCOME TO RAGE LTD

Rage has been created by an experienced team who specialises in covert, overt, system and perimeter security solutions.

## Reliable & Affordable Waste Clearance

Has your home or office undergone recent renovations? Have you just completed a house clearance and are left with mixed waste? Have you been working on a garden landscaping project? If any of these sounds like you, then you may require the Waste Clearance solutions of the specialists at Rage Ltd. We offer bespoke waste clearance packages at competitive prices for all kinds of waste, so please don't hesitate to get in touch with us today!

## What do waste clearance companies do?

It is reported that over 1 million tonnes of waste is generated annually across the UK and a huge amount of this is domestic waste. Waste clearance companies can be hired to remove, clear and recycle waste from within your property, whether that's a garage, office, construction site and more.

## Why waste clearance?

Fly-tipping is a huge problem in the UK and the Local Government Association reports instances in England have increased by almost 40% since 2012. We know that while the public has access to recycling centres, it's not always possible to fit a fridge or large amounts of waste into your car. Additionally, there can be potentially hazardous materials that need to be disposed of properly.

## What types of waste can we collect?

From household and garden waste to construction waste and more, we have waste clearance solutions for you. We provide waste collection services using our caged vans and lorries and can accommodate a whole host of waste types. Get in touch with us to discuss your requirements.

# What are the benefits of waste clearance?

We aim to reduce the percentage of fly-tipping and make waste clearance easy with our reliable and affordable waste clearance services. Here are some of the benefits of waste clearance...

## Saves you time

If you're clearing a house, project managing a construction site or working on office refurbishments, time is of the essence. Hiring a waste clearance company takes all the hassle out of the process and you have the peace of mind that your waste is taken care of.

## Adhere to Health & Safety

Depending on what you are getting rid of, you may require specialist waste disposals such as hazardous materials or chemicals. Additionally, there may be a fair amount of heavy lifting involved that we will be back to take on board.

## Protects the Environment

Hiring a waste clearance company will go a long way in protecting the environment. Aside from stopping fly-tipping from occurring, waste management companies will ensure that waste is properly sorted and recycled.

## Cost-Effective

When you consider what you'd have to spend in fuel getting to and from a recycling centre, or hiring a skip, hiring a waste clearance company is a much more cost-effective option. We can arrive, clear and leave all within one day.

# How does waste clearance work?

Our waste clearance and collection service can be completed in four simple steps...

1

## Book Your Waste Clearance

Book your waste clearance at a time that suits you. We are flexible and can work around your schedule for complete ease.

2

## Assessment

We'll visit your site to assess the waste and provide you with a quote for the clearance before we start work.

3

## Clearance

We will remove waste from any area including upstairs or in a garden as long as there is reasonable access to the waste.

4

## Recycling

All of the rubbish we collect is transferred to a local commercial recycling facility where it will be recycled if possible.

## Waste Clearance Prices

If you're wondering 'how much does it cost to clear a garage?' or have a house that needs clearing completely, then we have the answer for you. We recommend getting in touch with us for a free no obligation quote.
